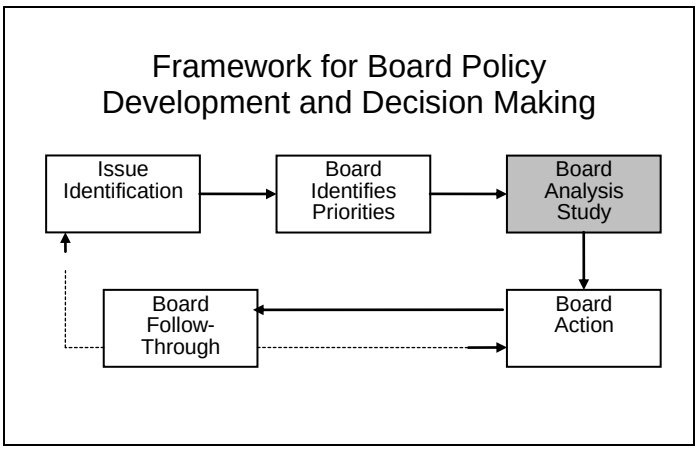
Iowa State Board of Education

Executive Summary

February 11, 2009



Agenda Item: Iowa Community Colleges Joint Enrollment Report 2008

Iowa Goal: Individuals will pursue postsecondary education in order to drive economic success.

Equity Impact Statement: This report describes services provided by the community colleges that support open access, education, and programs to constituents.

Presenters: Tom Schenk, Jr., Educational Program Consultant
Bureau of Community Colleges and Career Technical Education

Jeremy Varner, Educational Program Consultant
Bureau of Community Colleges and Career Technical Education

Attachments: 1

Recommendation: It is recommended that the State Board hear and discuss this information.

Background: The Iowa Community Colleges Joint Enrollment Report 2008 provides information on community college students who are enrolled in high school. The Department refers to these students as "jointly enrolled." Joint enrollment of high school students accounts for nearly a quarter of total community college credit enrollment and almost an eighth of total credit hours. In Iowa, high school students enroll in community college credit courses through a variety of ways including Postsecondary Enrollment Options (PSEO) courses, college courses offered through a contract between a local school district and a community college, and enrollment in college credit courses independently as tuition-paying students.

The number of jointly enrolled students rose to a record high of 31,450 students in fiscal year 2008. Since fiscal year 2002, joint enrollment has increased an average of 14.5 percent annually. Fiscal year 2008 had slower growth in joint enrollment than prior years (up 4.5 percent), but the growth continued to outpace overall college enrollment increases. Except where noted, data included in this report are taken from the Community College Management Information System (MIS).

It is the policy of the Iowa Department of Education not to discriminate on the basis of race, creed, color, sex, sexual orientation, gender identity, national origin, gender, disability, religion, age, political party affiliation, or actual or potential parental, family or marital status in its programs, activities, or employment practices as required by the Iowa Code sections 216.9 and 256.10(2), Titles VI and VII of the Civil Rights Act of 1964 (42 U.S.C. § 2000d and 2000e), the Equal Pay Act of 1973 (29 U.S.C. § 206, *et seq.*), Title IX (Educational Amendments, 20 U.S.C.§§ 1681 – 1688), Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 794), and the Americans with Disabilities Act (42 U.S.C. § 12101, *et seq.*).

If you have questions or grievances related to compliance with this policy by the Iowa Department of Education, please contact the legal counsel for the Iowa Department of Education, Grimes State Office Building, Des Moines, IA 50319-0146, telephone number 515/281-5295; or the Director of the Office for Civil Rights, U.S. Department of Education, Citigroup Center, 500 W. Madison Street, Suite 1475, Chicago, IL 60661, telephone number 312/730-1560, fax 312/730-1576, email: OCR.Chicago@ed.gov.

Executive Summary

The Iowa Department of Education collects information on joint enrollment in Iowa's 15 community colleges. Jointly enrolled students are high school students enrolled in community college credit coursework. This report consists of fiscal year and trend data on joint enrollment including headcount enrollment, credit hours, student demographics, and enrollment by program type and offering arrangement. All data included in this report is taken from the Community College Management Information System (MIS) and confirmed by each college.

Some of the highlights of this report are:

- Enrollment grew to a record high of 31,450 (Table 1).
- Year-to-year growth was 4.5 percent, which is below the typical rate of growth. Average annual growth over the last five years was 8.4 percent (Table 1).
- Jointly-enrolled students accounted for 24.5 percent of total community college enrollment (Figure 2).
- Joint enrollment accounts for 12.7 percent of total credit hours (Figure 3).
- A majority of the students (78 percent) enrolled through courses delivered through a contractual agreement between a community college and school district (Table 4).
- Sixteen percent of students enrolled through Post-secondary Enrollment Options (PSEO) courses (Table 4).
- Contracted course enrollment increased 8.8 percent (Table 4).
- Fifty-eight percent of joint enrollees were seniors in high school and 34 percent were juniors (Figure 8).
- Approximately 52.5 percent of joint enrollees were female (a lower proportion than the total student body) (Figure 6).
- Approximately eight percent of joint enrollees had a minority racial or ethnic background (a lower proportion than the total student body) (Figure 7).

About this Report:

This report summarizes joint enrollment in Iowa's community colleges. Jointly enrolled students are high school students enrolled in community college credit coursework. This report contains fiscal year data for the state's 15 community colleges reported through the Community College Management Information System (MIS) and confirmed by each college.

College Joint Enrollment Profiles	13

Joint Enrollment

Fiscal year high school credit enrollment consists of community college students who are also enrolled in high school. The Department of Education refers to these students as "jointly enrolled."

Joint enrollment of high school students accounts for nearly a quarter of total community college credit enrollment and almost an eighth of total credit hours. Iowa is one of at least 38 states with state dual enrollment policies (U.S. Department of Education, 2005). In Iowa, high school students enroll in community college credit courses in a variety of ways including through Postsecondary Enrollment Options (PSEO) courses, college courses offered through a contract between a local school district and a community college, and enrollment in a college course independently as a tuition-paying student. While often referred to as "dual credit," joint enrollment does not necessarily entail credit being issued at both the secondary and postsecondary levels. Some programs, such as PSEO and concurrent enrollment, require that credit be issued at each level, while other joint enrollment opportunities have no such requirement.

Most joint enrollment opportunities fall under the rubric of Senior Year Plus. The legislation passed in 2008 consolidated and standardized several existing programs involving college credit opportunities for high school students including PSEO, concurrent enrollment (which entails supplementary weighting for local school districts), career and regional academies, and advanced placement. The Community College MIS captures joint enrollment in three categories — PSEO, contracted courses (which may or may not be concurrent enrollment and generate supplementary weighting for the partnering local district), and tuition.

- Joint enrollment grew to a record high of 31,450.
- Year-to-year growth was 4.5 percent, which is below the typical rate of growth.
- Jointly enrolled students accounted for 24.5 percent of total enrollment.
- Joint enrollment accounted for 12.7 percent of total credit hours.

Joint enrollment in Iowa community colleges has steadily risen to a record high of 31,450 unduplicated students in fiscal year 2008 (Figure 1, Table 1). Since fiscal year 2002, joint enrollment has increased 101.2 percent or about 14.5 percent per year. However, fiscal year 2008 had slower growth than prior years — only 4.5 percent. In fiscal year 2008, jointly enrolled students accounted for 24.5 percent of total enrollment (Figure 2).

Table 1 – Joint Enrollment (Headcount), by College: 2004-2008

College	2004	2005	2006	2007	2008	Average Annual Change 2004-2008

SOURCE: Iowa Department of Education, Bureau of Community Colleges, Community College MIS.

While enrollment growth of jointly enrolled students has slowed, it has continued to outpace the rate of growth of total credit enrollment which increased 1.7 percent in fiscal year 2008. Enrollment of students not jointly-enrolled in high school increased 0.8 percent after declining in fiscal years 2006 and 2007.

The number of credit hours taken by each jointly enrolled student has remained unchanged from fiscal year 2007 with each jointly enrolled student enrolling in an average of 7.5 credit hours (Figure 4). Further analysis in the Condition of Iowa's Community Colleges 2008 report shows students enrolled in an average of 2.7 classes. The number of credit hours taken per jointly enrolled student has increased 8.5 percent since fiscal year 2002. Because high school students generally enroll part-time, they account for a smaller percentage of total credit hours than total enrollment (Figure 3). In fiscal year 2008, joint enrollment accounted for 12.7 percent of total credit hours.

The rate at which high school students enroll in community college coursework varies by local school district and community college region (Figure 10).

In fiscal year 2008, Iowa Central Community College had the largest percentage of total enrollment and total credit hours jointly enrolled (Figures 2, 3). Kirkwood Community College had the smallest percentage of enrollment and credit hours jointly enrolled. Statewide, 24.5 percent of community college students were jointly enrolled in 2008 and joint enrollment accounted for 12.7 percent of all credit hours delivered. Des Moines Area Community College had the largest number of jointly enrolled students and credit hours by a significant margin.

Nationally, public two-year colleges offer college credit coursework to high school students at higher rates than other sectors of higher education (Kleiner and Lewis, 2005). In 2005, 98 percent of public two-year colleges nationwide had high school students jointly enrolled in college credit coursework compared with 77 of public four-year institutions. In Iowa, delivery of programming to high school students is a part of the community colleges' mission (Iowa Code 260C.1) and, consequently, all 15 community colleges are committed to offering college credit opportunities to these students.

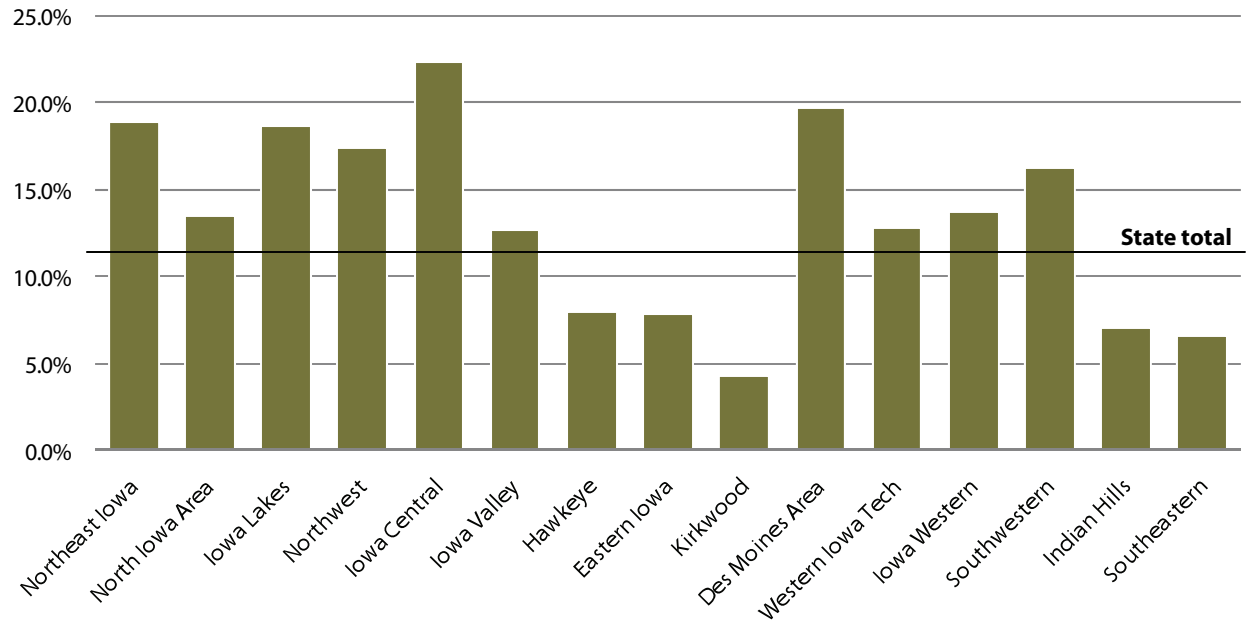
NOTE: Each bar "|" denotes 3,000 credit hours.

Figure 3 – Joint Enrollment as a Percentage of All Credit Hours, by College: 2008



Joint Enrollment Offering Arrangements

Contracted courses had the largest enrollment of the three types of joint enrollment offering arrangements accounting for 77.9 percent of jointly enrolled students in fiscal year 2008 (Figure 5, Table 4). Enrollment in contracted courses rose 8.8 percent from the previous year to 28,851 students. PSEO, which accounts for 16.1 percent of joint enrollment, had slower growth—a 2.6 percent increase over fiscal year 2007. Unlike other offering arrangements, enrollment of tuition paying students declined in fiscal year 2008.

Jointly Enrolled Student Demographics

The typical jointly enrolled community college student, as with prior years, is female, 18 years old, and white. Compared with the overall student body, jointly enrolled students are proportionally more white and male. In fiscal year 2008, approximately 52.5 percent of joint enrollees were female compared with 57.0 percent of the overall student body (Figure 6). The phenomenon of proportionally greater male enrollment is driven by contracted course enrollment which was 50.5 percent female in fiscal year 2008. In terms of gender, contracted course enrollment more closely mirrors high school enrollment than community college enrollment. In contrast, PSEO and tuition enrollment were 64.4 percent and 64.9 percent female respectively.

The racial/ethnic background of joint enrollees is less diverse than either total community college enrollment or public K-12 enrollment. In fiscal year 2008, approximately eight percent of joint enrollees were reported as having a minority racial/ethnic background. Contracted course enrollment had the largest proportion of minority students (8.7 percent) followed by tuition (6.3 percent) and PSEO (3.3 percent). Hispanics were the largest minority group with 44.4 percent of minority joint enrollment followed by Asian and black students with 26.0 percent and 23.9 percent respectively (Figure 7). In contrast,13.4 percent of the overall community college student body was reported to have a minority racial/ethnic background, 43.7 percent of which were black and 30.5 percent of which were Hispanic.

SOURCE: Iowa Department of Education, Bureau of Community Colleges, Community College MIS.

Figure 6 – Jointly Enrolled Student Gender, by College: 2008

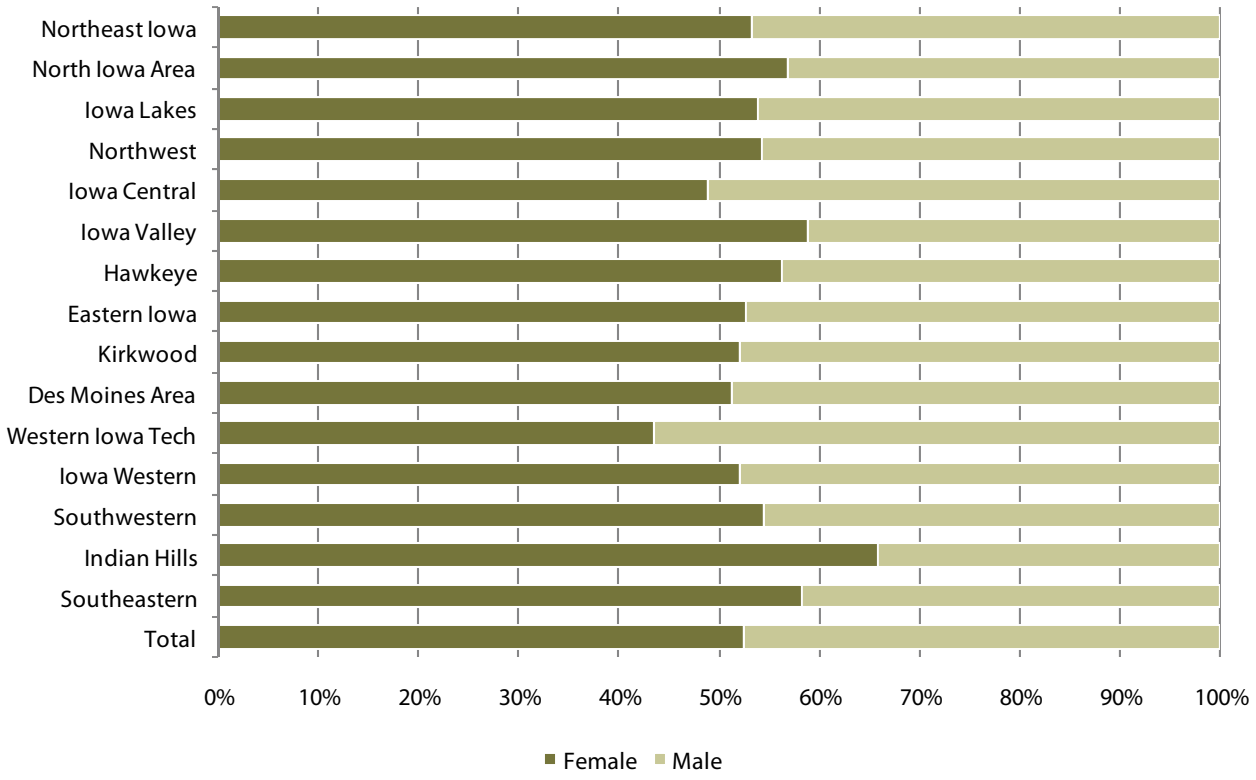

Figure 7 – Jointly Enrolled Student Racial and Ethnic Background: 2008

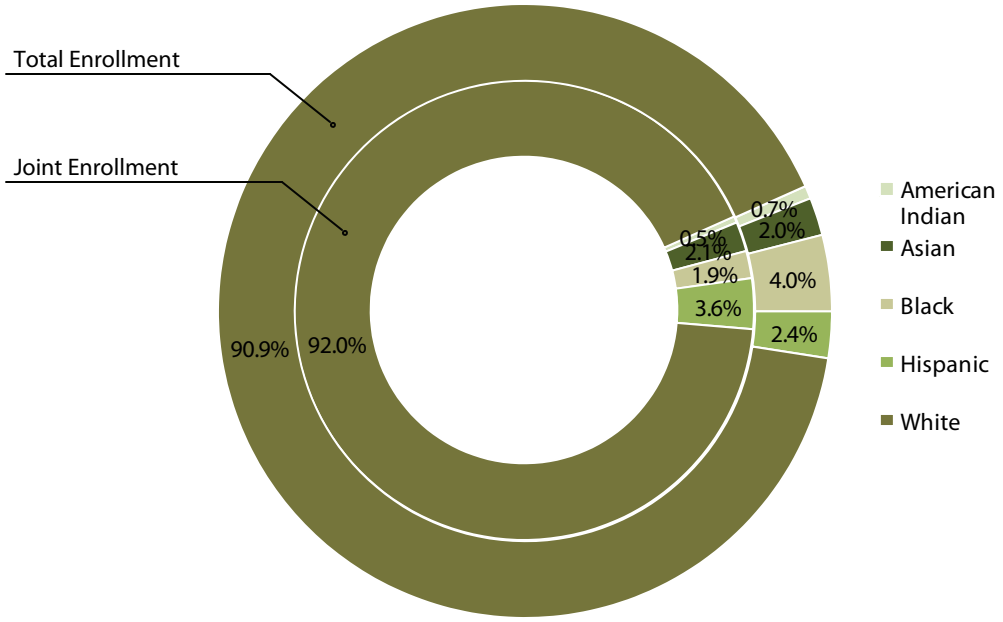

Note: Unknowns excluded….

As expected, jointly enrolled students were younger than the overall community college student body, but very few were younger than age 17 (less than 12 percent). Approximately 58.0 percent of jointly enrolled students were enrolled in 12th grade and another 33.6 percent were enrolled in 11th grade.

Jointly enrolled students were almost exclusively residents of Iowa. In fiscal year 2008, 99.7 percent of jointly enrolled students were from Iowa (71 out-of-state students were jointly enrolled).

Jointly Enrolled Students in Programs

Program majors describe students' concentration of courses and/or declared program completion goal. For jointly enrolled students, the analysis of fiscal year 2008 program major data should be qualified because of consistency issues with program major reporting.

Nearly 70 percent of jointly enrolled students enrolled in arts and sciences programs in fiscal year 2008 (Figure 9). Arts and sciences programs are college parallel programs leading to an Associate of Arts (AA) or Associate of Science (AS) degree. The programs are designed for students intending to transfer and obtain a baccalaureate degree. The AS and AA degrees prepare students to enter a four-year college as a junior. Joint enrollment in arts and sciences programs increased only 0.5 percent from fiscal year 2007, but has risen an average of 5.9 percent annually over the past five years (Figure 9).

More than 27 percent of jointly enrolled students enrolled in career and technical education (CTE) programs. CTE programs

Figure 8 – Jointly Enrolled Student Grade: 2008

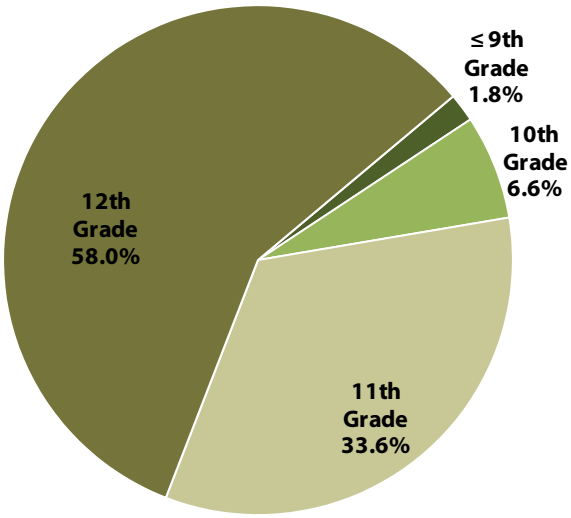

Figure 9 – Joint Enrollment, by Program Type: 2008

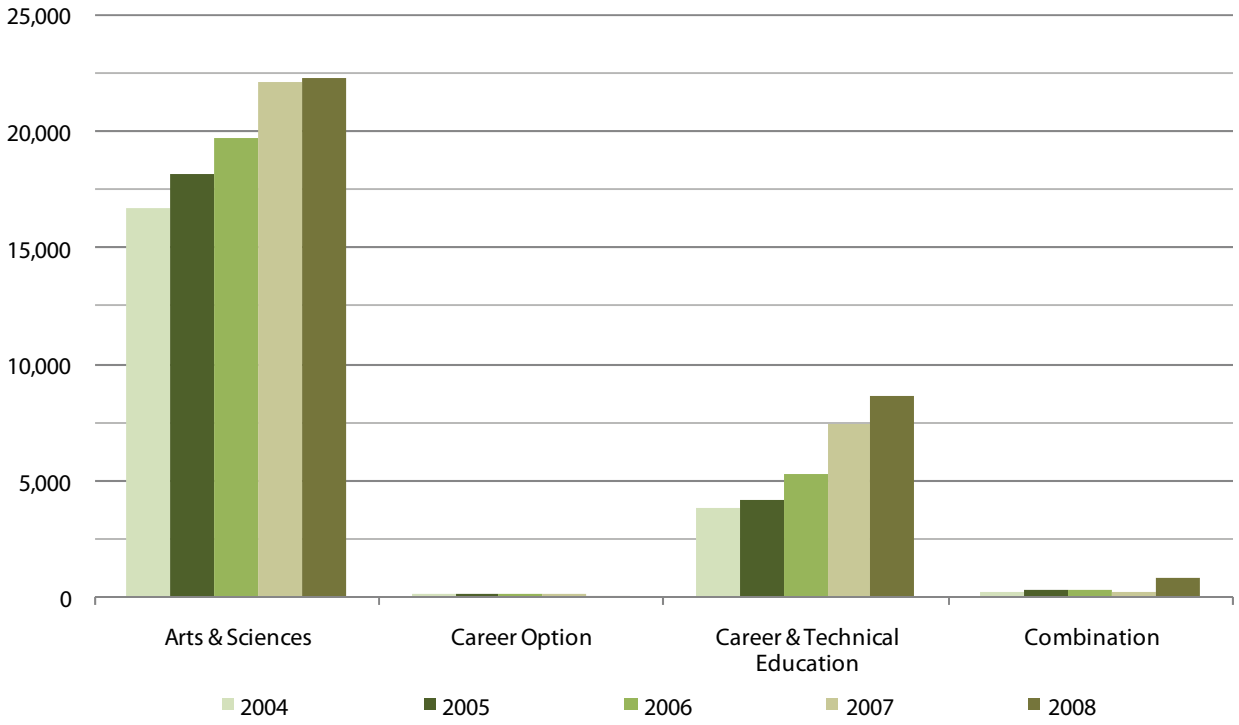

are credit programs leading to a certificate, diploma, Associate of Applied Arts (AAA), or Associate of Applied Science (AAS) degree. Career and technical programs are designed to provide the specific knowledge and skills essential for successful entry into a specific or related occupation or for further education. Joint enrollment in CTE programs increased 15.9 percent over fiscal year 2007. Over the past five years, joint enrollment in CTE programs has increased an average of 17.3 percent annually.

The balance of jointly enrolled students enrolled in either college parallel-career option programs (less than one percent) or a combination of the other three program types (three percent). College parallel-career option programs are Associate of Science (AS) degree programs designed as the first two years of transfer credit toward a baccalaureate degree in a specific occupational area and which includes a minimum number of skill development courses for immediate employment. Students are provided a choice of articulating their program to a four-year institution for completion of a four-year degree or seeking immediate employment. The programs are required to transfer to at least three institutions with a baccalaureate degree program in the career area.

Nationally, 36 percent of students enrolled in dual credit courses enrolled in career and technical education courses and 64 percent enrolled in arts and sciences courses (Waits, Setzer, and Lewis, 2005).

In Iowa, students participating in joint enrollment through PSEO were the most likely to be enrolled in arts and sciences coursework, followed by tuition-paying students. Students enrolling in contracted courses were the most likely to enroll in career and technical education coursework.

For additional information on jointly enrolled students, see the 2008 Condition of Iowa's Community Colleges Report. In addition to Section 5, Joint Enrollment and Demographics, the report includes a special supplement (Section 17) addressing the topic. The special supplement provides in-depth analysis from the Community College MIS and other data sources focused specifically on the topic of joint enrollment.

FIGURE 10: PERCENT OF HIGH SCHOOL STUDENTS (9-12 GRADES) ENROLLMENT IN IOWA COMMUNITY COLLEGES FY'2008
