Comment: State records for five (5) secondary students included both gender designations; therefore these students are not reflected in the secondary student grand total.

The method used to collect single parent data for secondary students in previous years was determined to be unreliable. Secondary student data regarding single parents and displaced homemakers were not collected with the state's reporting system (EASIER) thus no matching against the CTE student population was possible. Migrant status was collected but the data were not available for matching as of the date of this report.
