

Adequate Yearly Progress 2011-2012 Update

April-May 2012

Timeline

- May 14: AYP application opens for preliminary certification
- June 21: Preliminary AYP certification due
- July 10: Final AYP certification due

Spring 2012 Changes

- EASIER data is required to calculate enrollment counts and full academic year (FAY) status
 - Approved EASIER files are copied into AYP nightly
- Complete EASIER and AYP in tandem

EASIER enrollment counts

EASIER enrollment

Students with an active enrollment record in EASIER during the entire testing window

+ additional ITP/IAA records

Add students in the ITP and IAA files that the district was not required to test, but tested

- already tested in another district

Subtract students already tested for the school year in another district, then moved

Final participation count

EASIER entry codes

- All students with entry code of 1, 2, 3, 5, 15, 19
 - district = attending district, building = attending building
- All students with entry code of 4
 - district = resident district, building = '0000' (district level)
- Entry Code Key:
 - 1=enrolled
 - 2=open enrolled
 - 3=tuitioned in parent paid
 - 4= tuitioned in district paid
 - 5= whole grade sharing in
 - 15=tuitioned in state paid
 - 19=foreign student on Visa

Enrollment count logic

- Students enrolled on first day of testing through next six calendar days (testing window)
 - First day of testing is supplied to DE from ITP, but can be changed on the AYP application
- Tuitioned in (district paid) students use testing date from attending district

‘Not Applicable’ is not a valid reason for students enrolled but not tested and will prevent the certification of AYP.

If student was not enrolled, enrollment information in EASIER is inaccurate and must be fixed.

If student was enrolled in district but did not test, a valid reason must be entered for student in EASIER.

How FAY is calculated through EASIER

FAY logic

If a student has Entry Code of

'1' (Enrolled)

'2' (Open Enrolled In)

'3' (Tuitioned in Parent Paid)

'4' Tuitioned in District Paid)

'5' (Whole Grade Sharing In)

'15' (Tuitioned in State Paid)

'19' (Foreign Student on Visa)

The student is put into FAY counts

FAY logic

Then the following Exit Codes (occurring between Test Date A and Test Date B) **break FAY for district and building**

'1' (Transferred)

'2' (Open Enrolled Out)

'3' (Tuitioned Out District Paid)

'4' (Dropout)

'5' (Expelled)

'6' (Reached Max Age)

'7' (Deceased)

'8' (Graduated from High School)

'9' (Illness – if NOT receiving educational services)

'10' (Whole Grade Sharing Out)

'11' (Tuitioned Out Parent Paid)

'27' (Interim Placed if NOT at an AEA School/Sponsored program or in a Community College program)

'29' (Expulsion from Previous Year)

FAY logic

Then the following Exit Codes (occurring between Test Date A and Test Date B) **break FAY for building only**

'9' (Illness – if receiving educational services)

'27' (Interim Placed - if placed at an AEA School/Sponsored program or a Community College program)

'28' (Transfer within District)

NOTE: The exit code of '14' may or may not break FAY for building or district depending on the re-entry status

Exit code '14' vs. '28'

- Use exit code '14' *End or Change Enrollment* if a student has a change in
 - Entry code
 - Resident district
 - Foster care
 - Service Provider/Facility
 - FTEAnd continues enrollment in the district.

Exit code '14' vs. '28'

- Use exit code '28' *Within district transfer* if a student has an AYP entry code and changes buildings within the district
 - Do not exit as a transfer to your district as this will break FAY for district
