Recommendation: It is recommended that the State Board give public notice of its intent to amend Chapter 97.

Background: Senate File 2284 amends Iowa Code to clarify that courses offered by a school district through collaboration with a community college in partnership with a nationally recognized, not-for-profit provider of rigorous and innovative science, technology, engineering and math curriculum, are courses eligible for supplementary weighting. Such courses are commonly known as “Project Lead the Way” courses. The proposed amendments implement this legislation.

These amendments allow students who are enrolled in official Project Lead the Way courses to be counted for supplementary weighting, as all other students who are enrolled in concurrent enrollment with official community college coursework.
