Background: Collaborating for Iowa's Kids (C4K) is pleased to announce over 90 schools that accepted invitations to partner with the state to refine statewide implementation of Response to Intervention focused on early literacy within the Iowa Core. Districts and elementary schools invited to be part of this first phase, fall 2013, are being supported through:

- Access, training and support to use Iowa TIER (Iowa's Tools for Innovation in Educational Results - Iowa's new data system to support data-based decision making);
- Access, training and support in the use of Iowa's Universal Screening and Progress Monitoring Assessments;
- Processes, tools and coaching to support consensus, leadership, collaborative inquiry and Iowa's early literacy framework within the Iowa Core;

- Professional development, coaching and support to implement solutions based on building need;
- Assistance to enhance Universal Literacy Instruction; and
- Assistance in building targeted supports for literacy.

C4K is a partnership among the Area Education Agencies, the Iowa Department of Education, and local school districts. The intent of C4K is to work more effectively and efficiently as a full educational system. The C4K initial priority focus, collective efforts and resources are on early literacy with the goal that every Iowa child is a skilled reader by the end of third grade. C4K selected this priority focus because of the integral role literacy proficiency plays for success in all other academic and social areas.
