Recommendation:

It is recommended that the State Board adopt new Chapter 48.

Background:

In 2013, legislation was passed to establish a network of regional work-based learning intermediary networks to connect business and the education system and expand the availability of relevant work-based learning opportunities (e.g., job shadows, internships, and career fairs) to students and teachers particularly related to science, technology, engineering, or mathematics occupations, occupations related to critical infrastructure and commercial and residential construction, or the targeted industries of advanced manufacturing, biosciences, and information technology. This new chapter of administrative rule is intended to implement the program.

There were no comments received regarding the Chapter 48 rules during the public hearing process.
