- Add Addendum with materials aligned to HF215
- Way too long
- Straight-forward. Doesn't do justice to current great work happening in Iowa. Should start out: Currently in Iowa we are doing this... The recommendation means that we should do this...
- Research is good, but not what this Council read and discussed - new to Council Members.
- Previewing the challenge part is strong.
- Recommendations lack specific support of what we already do in Iowa.
- Balanced approach between Teacher & Administrator Process
- Suggests a Brief Summary of Recommendation Statements & bulleted points w/ links to resources for Public Feedback/Review
- Give readers context. In abbreviated form w/ preamble that includes connection between educator development & teacher evaluation
