

Student's Name _____

 Iowa Alternate Assessment 2013-2014 Math Rating Scale Grade 10-11		Check the Box if Full Physical or Full Verbal Prompts were used (the student was given the answer)	Student Performance in Percent Accurate (0% - 100%)
Standard 1: Students can understand and apply a variety of math concepts			
1.1	Counts up to 3 objects	<input type="checkbox"/>	_____
1.2	Identifies numerals 0-10	<input type="checkbox"/>	_____
1.3	Differentiates whole numbers from decimals	<input type="checkbox"/>	_____
1.4	Solves single-digit story problems using addition	<input type="checkbox"/>	_____
1.5	Identifies or finds number that is between two others (for example, 3, __, 5)	<input type="checkbox"/>	_____
1.6	Uses number lines to solve problems	<input type="checkbox"/>	_____
1.7	Add or subtract whole numbers, objects, pictures, or symbols	<input type="checkbox"/>	_____
1.8	Builds and extends basic patterns of linear functions (now I have this, next I have that. How do I get from now to next?)	<input type="checkbox"/>	_____
1.9	Identifies time using "next year"	<input type="checkbox"/>	_____
1.10	Identifies time using "last month"	<input type="checkbox"/>	_____
1.11	Identifies time to the half-hour using an analog clock	<input type="checkbox"/>	_____

Student's Name _____

 Iowa Alternate Assessment 2013-2014 <i>Math Rating Scale</i> <i>Grade 10-11</i>		Check the Box if Full Physical or Full Verbal Prompts were used (the student was given the answer)	Student Performance in Percent Accurate (0% - 100%)
Standard 1: Students can understand and apply a variety of math concepts			
1.12	Identifies time to the quarter-hour using a digital clock	<input type="checkbox"/>	_____
1.13	Identifies or labels "one-dollar bill"	<input type="checkbox"/>	_____
1.14	Identifies or labels "twenty-dollar bill"	<input type="checkbox"/>	_____
1.15	Identifies and explains the relationship between coins and dollars (e.g., 10 dimes = \$1.00)	<input type="checkbox"/>	_____
1.16	Identifies values of coin combinations through \$1.00	<input type="checkbox"/>	_____
1.17	Demonstrates coin and bill combinations through \$20.00 using real-life situations	<input type="checkbox"/>	_____
1.18	Identifies or labels the shape, "circle"	<input type="checkbox"/>	_____
1.19	Identifies or labels parallel lines	<input type="checkbox"/>	_____
1.20	Differentiates 2-dimensional objects from 3-dimensional objects	<input type="checkbox"/>	_____

 Iowa Alternate Assessment 2013-2014 Math Rating Scale Grade 10-11		Check the Box if Full Physical or Full Verbal Prompts were used (the student was given the answer)	Student Performance in Percent Accurate (0% - 100%)
Standard 2: Students can understand and apply methods of estimation			
2.21	Divides an object or set into 1/4s	<input type="checkbox"/>	_____
2.22	Estimates length to the nearest centimeter	<input type="checkbox"/>	_____
2.23	Differentiates fractions from decimals	<input type="checkbox"/>	_____
2.24	Orders items as 1 st , 2 nd , and 3 rd	<input type="checkbox"/>	_____
2.25	Recognizes items as 1 st or last	<input type="checkbox"/>	_____
Standard 3: Students can solve a variety of math problems			
3.26	Create and solve a real world problem involving an unknown using appropriate tool (s) (number strips, manipulatives, calculators, mental math, etc.)	<input type="checkbox"/>	_____
3.27	Identifies area of geometric shapes using grids and manipulatives	<input type="checkbox"/>	_____
3.28	Solves double-digit subtraction problems	<input type="checkbox"/>	_____
3.29	Uses manipulatives or objects to identify circumference of circles	<input type="checkbox"/>	_____
3.30	Answers questions using multiplication facts through 9	<input type="checkbox"/>	_____

 Iowa Alternate Assessment 2013-2014 Math Rating Scale Grade 10-11		Check the Box if Full Physical or Full Verbal Prompts were used (the student was given the answer)	Student Performance in Percent Accurate (0% - 100%)
Standard 3: Students can solve a variety of math problems			
3.31	Identifies correct operation to solve story problems	<input type="checkbox"/>	_____
3.32	Understands the commutative property (2 things in different orders equals the same outcome)	<input type="checkbox"/>	_____
3.33	Understands if the student has sufficient money to purchase a preferred item	<input type="checkbox"/>	_____
Standard 4: Students can interpret data presented in a variety of ways			
4.34	Identifies or answers questions about "mode" presented in a graph	<input type="checkbox"/>	_____
4.35	Collects data and creates a graph; interpret the results	<input type="checkbox"/>	_____
4.36	Collects data and creates 2 different types of graphs	<input type="checkbox"/>	_____
4.37	Identifies or answers questions about "least" summarized in a table	<input type="checkbox"/>	_____
