Fall BEDS:

Added:

1. Child Care Programs - Data were collected for public school last year. This requirement has now been extended to non-public schools. Data are to be submitted for child-care programs specifically intended to serve infants and toddlers, preschool-aged children and children in before and after school programs. Even if child-care programs are not operated by the district/school but are on school property, they must be reported using the “Child Care” form on Fall BEDS. The “count date” for all programs is October 1st.

2. Radon Testing and Notification – Each district and accredited nonpublic school is required to notify the Department of Education by **December 1, 2014**, whether it has a radon testing and mitigation plan or any expectations to implement such a plan. Questions regarding a district's intention are included in the Fall BEDS application for 2014. The data collected regarding the radon testing and mitigation will be reported to the General Assembly by January 1, 2015.

3. Operational Sharing Form – Each district that qualifies for operational sharing supplemental weighting and has indicated that they would like to receive funds must verify the accuracy of the data for the individuals identified using the “Shared Status” indicator in Fall BEDS Staff.
