<p>Evidence to support attainment of or failure to meet standard:</p> <p>Peter has taken an active role with our district subject area committee for the Reading and Language Arts curriculum of our K-12 district. In this capacity, he played an important role in the development of and support for our district student achievement goals. Part of the work completed by this committee was to develop a parent communication letter about our standards and benchmarks and how we will monitor students' progress toward success with those benchmarks. In turn, Peter created a communication form for both students and parents about progress on the benchmarks for his own Language Arts classes. Also, this committee completed an item analysis of the Iowa Tests and looked at the gaps and redundancies with our Reading and Language Arts curriculum. By following through after these activities, Peter has successfully addressed criteria 1a, 1b, 1c, 1f and 1g.</p> <p>Peter has begun the use of a spreadsheet that connects student work including daily work, homework and assessments to the district curriculum standards and benchmarks. He has begun to use this database as part of his decision-making routine when planning for instruction.</p> <p>It is apparent from observations in Peter's classroom, not only by his instructional behaviors, but also by the physical learning environment of his classroom, that there is an environment of mutual respect, rapport and fairness. This is evidenced by display of student work and progress on the benchmarks bulletin board, observed teacher to student and student to student interactions, and examples of student work. With his use of the benchmark database, the classroom environment and instructional interactions, Peter has successfully addressed criteria 1c, 1d, and 1e.</p>	<p>Circle one: Meets Standard Does Not Meet Standard</p>

His lesson plans and his instruction showed that he had clearly outlined the key components of the content, showed various perspectives for the concepts and provided for a range of student learning styles and abilities. With these, Peter has successfully addressed criteria 2a, 2b and 2d.</p> <p>Peter has shown an emerging breadth of range for instructional strategies and has reached out to at least two colleagues to relate concepts across the curriculum. Although in his use of immediate feedback to students through verbal interaction and in his review of student work in class, he has tended to give more frequent feedback to the male students than to the female students, since he visited with his mentor about this, he has developed a checklist for himself to monitor this. This checklist has also allowed him to adapt his delivery based upon immediate feedback from students. He also considers the results of the student interest surveys as he delivers instruction. This came up as a result of a conference we had together after one of his classroom observations. With these uses of feedback, he has addressed criteria 4c and 4e.</p> <p>Peter has involved the students in the development of a rubric for a quality essay, and for quality sentences and paragraphs. Peter has shown an emerging breadth of range for instructional strategies and has reached out to at least two colleagues to relate concepts across the curriculum. Although he could benefit by continuing to increase his range of instructional strategies, he has shown willingness to acquire additional strategies to add to those he already uses. These actions show that Peter has successfully addressed criteria 4b and 4d.</p> <p>Peter uses multiple resources beyond the Literature and Composition textbooks, including elements of technology, such as word processing, appropriate internet web sites, and graphics producing programs such as Appleworks and PowerPoint. With this Peter has successfully addressed criteria 4d and 4f.</p> <p>Peter has begun the use of a spreadsheet that connects student work including daily work, homework and assessments to the district curriculum standards and benchmarks. He has begun to use this database as part of his decision-making routine when planning for and delivering instruction. With this, Peter has successfully addressed criteria 4a.</p> <p>Peter has videotaped himself in the midst of instruction and has completed a self-assessment of his work. Peter also uses a checklist to monitor the quality and frequency of his feedback to students. With this Peter has successfully addressed criteria 5b and 5d.</p> <p>Peter has taken an active role with our district subject area committee for the Reading and Language Arts curriculum of our K-12 district. In this capacity, he played an important role in the development of and support for our district student achievement goals.
